ADMINISTRACION DE JUSTICIA

Equal justice in the balance : America's legal responses to the emerging terrorist threat

By Raneta Lawson Mack & Michael J. Kelly ;
with a foreword by Michael Ratner

Ann Arbor, MI :

University of Michigan
Press, 2004.

342.73
MAC

Here is a sobering and exacting look at American legal responses to terrorism, both before and after 9/11. The authors detail wide-ranging and persuasive evidence that American antiterrorism legislation has led to serious infringements of civil rights. They show how deviations from fundamental principles of fairness and justice in times of heightened national anxiety - whether the Red Scare, World War II, or the War on terrorism - have resulted in

overreaction and excess, later requiring apologies and reparations to those victimized by a paranoia-driven justice system.

AUTORITARISMO

Open networks, closed regimes : the impact of the Internet on authoritarian rule

By Shanthi Kalathil,
Taylor C. Boas.

Washington, DC :
Carnegie Endowment
for International
Peace, 2003.

320.53
KAL

As the Internet diffuses across the globe, many have come to believe that the technology poses an insurmountable threat to authoritarian rule. Grounded in the Internet's early libertarian culture and predicated on anecdotes pulled from diverse political climates, this conventional wisdom has

informed the views of policy makers, business leaders, and media pundits alike. Yet few studies have sought to systematically analyze the exact ways in which Internet use may lay the basis for political change. In *Open Networks, Closed Regimes*, the authors take a comprehensive look at how a broad range of societal and political actors in eight authoritarian and semi-authoritarian countries employ the Internet. Based on methodical assessment of evidence from these cases-China, Cuba, Singapore, Vietnam, Burma, the United Arab Emirates, Saudi Arabia, and Egypt-the study contends that the Internet is not necessarily a threat to authoritarian regimes.

BIBLIOTECOLOGIA Y CIENCIAS DE LA INFORMACION

The accidental webmaster

By Julie M. Still
Medford, NJ : Information Today, 2003.

005.7
STI

Here is a lifeline for the individual who has not been trained as a Webmaster, but who-whether by choice or under duress-has become one nonetheless. While most Webmastering books focus on programming and elated technical issues, *The Accidental Webmaster* helps readers deal with the full range of challenges they face on the job. Author, librarian, and accidental Webmaster Julie Still offers advice on getting started, setting policies, working with ISP's, designing home pages, selecting content, drawing site traffic, gaining user feedback, fundraising, avoiding copyright problems, and much more. A must read for all accidental Webmasters, as well as for directors and managers of businesses, libraries, community groups, and other organizations that want to build and maintain a successful Web site on a volunteer or part-time basis.

Annual review of information science and technology. Volume 39, 2005

By Blaise Cronin, editor.
Medford, NJ : Information Today, Inc, 2004.

REF
020.3
ANN

ARIST, published annually since 1966, is a landmark publication within the information science community. It surveys the landscape of information science and technology, providing an analytical, authoritative, and accessible overview of recent trends and significant developments. The range of topics varies considerably, reflecting the dynamism of the discipline and the diversity of theoretical and applied perspectives. While ARIST continues to cover key topics associated with "classical" information science (e.g., bibliometrics, information retrieval), editor Blaise Cronin is selectively expanding its footprint in an effort to connect information science more tightly with cognate academic and professional communities.

Complete copyright : an everyday guide for librarians

By Carrie Russell.
Chicago, IL : American Library Association, 2004.

REF
346.73
COM

Librarians face myriad copyright dilemmas every day, and as copyright law evolves and new interpretations emerge, libraries play a key role in representing the public in the copyright debate. But how do new copyright laws affect traditional services and new virtual reference user services? What must librarians do to ensure that staff and patrons fully exercise copyright exemptions, like fair

use? Offering a wealth of information on library copyright concerns in a vibrant, highly accessible format, this book provides clear, user-friendly guidance for both common copyright issues and latest trends, including the intricacies of copyright in the digital world. It illustrates how librarians can be advocates for a fair and balanced copyright law. It offers a cast of engaging characters who guide librarians on an exploration of copyright complexities through a range of everyday situations.

BRO

Classification is everywhere. We classify birds and animals, languages and ethnic groups, stars, volcanoes, minerals and clouds, wine and blood, and colours and roses. We classify diseases, occupations and social status; the size of notepaper (grand eagle, elephant and pott); the dimensions of icebergs (small, bergy bits and growlers); and brandy (mellow, pale and

superior) This is a book about some of the systems which people have created for organizing information.

How libraries and librarians help: a guide to identifying user-centered outcomes

By Joan C. Durrance and Karen E. Fisher ;
with Marian Bouch Hinton.

Chicago, IL :
American Library
Association,
2005.

027
DUR

With the increasing need to prove the value of specific library services in order to obtain grants and funding, the practice of measuring user outcomes is becoming crucial to the library. Libraries need to communicate the value of library programs by assessing their effects on library patrons and the community as a whole. Authors Durrance and Fisher have tested and developed the How Libraries and Librarians Help Outcomes Model to help library professionals effectively communicate their story by assessing the outcomes of library services.

Information literacy instruction for educators : professional knowledge for an information age

By Dawn M. Shinew

Binghamton, NY: Haworth Information
Press, 2003.

028.7
INF

This book explores various methods of instructing pre-service teachers and administrators on how to locate new subject matter and distinguish between fact, opinion, and rhetoric across a wide variety of topics.

Experienced educators and librarians join forces to present a number of exemplary efforts from international communities. This book also looks at approaches for incorporating information literacy instruction into K-12 pre-service education programs. This book will show you how to develop information literacy skills as a student, a lifelong learner, and as a professional—honing the ability to locate, evaluate, manage, and present information on any subject. It presents original thinking about collaborations between librarians and faculty members to promote information literacy as a core element of the professional knowledge for K-12 teachers and administrators in the 21st century.

The U.S. and Mexico: the bear and the porcupine

By Jeffrey Davidow.
Princeton, NJ :
Markus Wiener
Publishers, 2004.

327.730
DAV

In this vivid memoir, Davidow, U.S. ambassador to Mexico from 1998 to 2002, sheds light on the curious profession of diplomacy and enjoyably depicts how such work ranges from the fascinating to the foolish. Davidow reveals how, in the sensitive and often covert dealings of U.S.-Mexico relations, ambassadors must perform petty damage control while simultaneously tending to the more pressing issues of U.S. national security, most importantly the war on drugs. As he sees it, uninformed and intrusive American officials don't mix well with prickly Mexicans who seem convinced the White House spends much of its time plotting ways to undermine Mexico's sovereignty. The author's casual tone should not discourage the more academic reader; Davidow shares vital new insights in the growing debate over Mexican immigration. He also dishes valuable descriptions of the cast of political characters involved in U.S.-Mexican diplomacy, not to mention some good gossip. Davidow argues that no nation in the world affects the daily life of average Americans as much as Mexico, thus making relations with that country tremendously important. His many years of experience in the U.S. Foreign Service, his profound knowledge of Mexico and his affinity with that country's people and culture make his a valuable perspective, spiced with poignant humor and sharp criticism that will delight readers interested in what goes on behind closed doors in Washington and Mexico City.

People get ready!: a new history of Black gospel music

By Robert Darden.
New York, NY:
Continuum, 2004.

782.25
DAR

Here is a passionate, celebratory, and carefully researched chronology of one of America's greatest treasures. From Africa through the spirituals, from minstrel music through jubilee, and from traditional to contemporary gospel, People Get Ready! shows the links between styles, social patterns, and artists. The emphasis is on the stories behind the songs and musicians. From the nameless slaves of Colonial America to Donnie McClurkin,

Yolanda Adams, and Kirk Franklin, the book provides an accessible overview of this musical genre. In addition to the more familiar stories of Thomas A. Dorsey and Mahalia Jackson, it offers intriguing new insights into the often forgotten era between the Civil War and the rise of jubilee-that most intriguing blend of minstrel music, barbershop harmonies, and the spiritual. Also chronicled are the connections between some of gospel's precursors (Blind Willie Johnson, Arizona Dranes, and Sister Rosetta Tharpe) and modern gospel stars, including Andrae Crouch and Clara Ward. People Get Ready! knits together a number of narratives, and combines history, musicology and spirituality into a coherent whole, stitched together by the stories of dozens of famous and forgotten musical geniuses.

MUSULMANES EN AMERICA

Islam in urban America : Sunni Muslims in Chicago

By Garbi Schmidt.
Philadelphia, PA:
Temple University Press, 2004.

305.6
SCH

In recent years, world events have trained a harsh spotlight on the Muslim religion and its adherents. The misunderstanding and bias against Muslims in the United States not only persists but has deepened. In this study of an immigrant community in Chicago, Garbi Schmidt considers the formation and meaning of an "American Islam." This vivid portrait of the people and the institutions that draw them together contributes to the academic literature on ethnic and religious identity at the same time as it depicts an immigrant community's struggle against bias and forces that threaten its cohesion.
